7. **Residue Beneficiary** – A person(s) nominated by the member/retiree to receive the retirement account balance, if any, at the termination of any option annuities payable on account of the retiree's death.

POLICIES

Before the date the first payment of an annuity becomes due, a member retiring on age and service or disability may elect to receive an annuity payable as provided in one of the following:

1. **Option 1:** A straight life annuity payable monthly for the life of the retiree.

Upon the retiree's death, if the retiree has not received payments equal to the retirement account balance, the residue, if any, shall be paid to the residue beneficiary. If no residue beneficiaries survive the retiree, the residue will be paid to the retiree's estate.

2. Effect of Option 1 Retiree's Death Within the First Year of Retirement

If an Option 1 retiree dies within one year of retirement, his/her spouse may elect to cancel the Option 1 annuity in effect and elect Option A (100% survivor annuity) if:

- A. The spouse otherwise qualifies as an Option A beneficiary;
- B. The spouse is designated as the retiree's residue beneficiary; and
- C. The election form to convert the annuity to Option A is received by ATRS within 90 days of the retiree's death.

The election shall become effective the first day of the month following receipt of the election form by ATRS. If the spouse elects Option A, the residue, if any, will not be paid until the Option A beneficiaries' death.

- 3. **Option A:** A 100% survivor annuity paid to the retiree as a reduced annuity monthly for the retiree's life and, upon his/her death, the reduced annuity shall be paid throughout the life of the retiree's option beneficiary.
- 4. **Option B:** A 50% survivor annuity paid to the retiree as a reduced annuity monthly for the retiree's life and, upon his/her death, a one-half reduced annuity shall be paid throughout the life of the retiree's option beneficiary.

5. Persons Eligible as Option A or B Beneficiaries

In order to be nominated as an Option A or B beneficiary, the person must be one of the following:

- A. The retiree's spouse (if the retiree has been married to the spouse for at least one (1) year prior to the first annuity payment being paid to the retiree);
 - B. A person, aged 40 or older, who receives more than one-half support from the retiree for a minimum of one (1) year immediately preceding the first annuity payment being paid to the retiree; or
 - C. A dependent child (regardless of age) who has been ruled physically or mentally incapacitated by an Arkansas court of competent jurisdiction or by the Board.
- 6. **Option C:** A reduced annuity payable for 10 years certain, then as a straight life annuity thereafter for the retiree's life. If the retiree dies before receiving 120 monthly annuity payments, the annuity shall be continued for the remaining 120 months and paid to the retiree's option beneficiary.
 - A. If, after retirement, the Option C beneficiaries predecease the retiree, the retiree may either nominate successor beneficiaries or elect to return to an

Option 1 annuity. The election will be effective the first day of the month following receipt of the election form by ATRS.

B. If a retiree receives the one hundred twenty (120) monthly payments under Option C, ATRS will return the retiree to an Option 1 annuity for the remainder of his life.

C. An Option C beneficiary may not nominate a successor beneficiary should he/she not survive to draw the 120 payments.

7. Payment of Residue Upon Option A, B, or C Retiree's Death

If a retiree who elected Option A, B, or C and his option beneficiaries die before receiving annuity payments equal to the retirement account balance, the residue shall be paid to the residue beneficiaries on file with ATRS.

If no designated option or residue beneficiary survives the retiree at his death, the residue, if any, shall be paid to the retiree's estate.

If after a retiree dies, an option beneficiary begins receiving an annuity but dies prior to the retiree and the option beneficiary receiving payments equal to the retirement account balance, the residue shall be paid to last surviving option beneficiaries' estate if the retiree has no residue beneficiary surviving or otherwise filed with ATRS.

8. Final Benefit Check

Benefits are payable through the month in which the option beneficiaries' death occurs. If the option beneficiary dies prior to receiving the last check, ATRS will pay the final check in the normal manner it was paid prior to death. If payment of the final check in the normal course becomes impossible, the final annuity check will be paid to the option beneficiaries' estate.

9. Effect of the Beneficiary Spouse's Death, Marriage Dissolution, and Retiree Marriage after Retirement on Annuity Options

A. Cessation of Marriage to a Spouse Selected as the Retiree's Option Beneficiary After Retirement

If a retiree receiving an Option A, B, or C annuity ceases to be married to a spouse who is nominated as his/her option beneficiary due to the spouse's death or marriage dissolution, the retiree may elect to return to an Option 1 annuity. The election must be submitted on an approved form, and the change shall be effective the first day of the month following receipt of the election.

B. Retiree Marriage after Retirement

A retiree who is receiving an Option 1 annuity and marries after retirement may cancel the Option 1 annuity and elect Option B providing a 50% survivor annuity for the life of his/her spouse. The election must be filed with ATRS on an approved form within 6 months from the date of the marriage.

10. Change of Option Election Allowed Within 1 Year of Retirement

A member who retires on or after July 1, 1994, may cancel the annuity election made at retirement and elect a different option provided that:

- A. The election is received by ATRS on an approved form within one (1) year from the date of retirement;
- B. The retiree repays ATRS the difference between the annuity received under the prior option and the annuity elected from the date of retirement, plus regular interest (8% after July 1, 1998); and
- C. The change of annuity option is made only once during the first year of retirement and is effective retroactive to the commencement date of the annuity.

11. Beneficiaries Designated at Retirement

Prior to the receipt of the first monthly annuity check, a retiree shall name a beneficiary or beneficiaries and may name contingent beneficiaries.

E. If at the time of an active member's death, a surviving spouse is listed on the death certificate, the Arkansas Teacher Retirement System (ATRS) will search for the surviving spouse for up to one year. If after one year, ATRS has not located the surviving spouse, nor been contacted by the surviving spouse, ATRS will refund the member's account to the designated refund beneficiary(s), or if there are no designated refund beneficiaries surviving the member, the accumulated contributions shall be payable to the member's estate.

8. SURVIVOR BENEFITS IN CASE OF DEATH OF DISABILITY APPLICANT:

In the case of an active member who has applied for disability retirement and dies before receipt of the first retirement check, determination must be made on an individual basis as to whether survivor benefits will be payable or whether the case will be processed for disability retirement.

9. COVERED SALARY:

For the purposes of determining survivor benefits, covered salary shall be that salary on which the member would have made contributions had he lived through the end of the fiscal year as evidenced by the contract salary or \$7,800.00 maximum. If, however, a member making contributions only on the first \$7,800.00 of his total annual salary receives a refund of his contributions and subsequently returns to covered service as a noncontributory member,

he shall be considered on full salary for reporting purposes. Should he wish to repay any refunds that include contributory service, he must pay the additional contributions due to change to full salary.

For a deceased member whose salary for reporting purposes is \$7,800.00 and who did not receive a refund, ~~his~~ the beneficiary may elect to change the member's status effective July 1, 1986, to the noncontributory plan, and ~~his~~ the account shall be considered on full salary for reporting purposes. Additional employer contributions for that period shall not be due. However, if the beneficiary elects to make the change in the member's account, additional employee and employer contributions must be paid on any service reported between July 1, 1969, and June 30, 1986.

10. INCLUSION OF POST-DEATH PAYMENTS AS SALARY AND DAYS OF SERVICE.

Payments of salary that are made after the death of a member, but have been earned prior to death are subject to Teacher Retirement deductions and reported in total salary and days of service on the D-2a. Payments made by an employer subsequent to the death of an active member that had not been earned but are made as a gratuity shall not be included as salary and are not subject to deductions.

11. CONTINUATION OF ACTIVE MEMBERSHIP STATUS

Active membership will continue beyond a fiscal year in which credited service was rendered, provided the employing institution certifies continuing employment, and leave of absence with pay upon which the member is making contributions also continues active membership.

12. DEATH BENEFITS PAYABLE BY MORE THAN ONE RECIPROCAL SYSTEM.

If death-in-service benefits are payable by more than one reciprocal system to eligible survivors of a deceased member, such survivors shall not receive more as a percent of the deceased member's final pay or as a minimum dollar amount than the largest amount payable by a single reciprocal system. The Teacher Retirement System will prorate minimum benefits payable with any other reciprocal system that has a minimum benefit provision in its plan. Each reciprocal system shall pay only a proportionate share of such minimum amount based on the ratios of such service in such system to the total service in all reciprocal systems.

13. ACT 793 TRANSFERS.

When the member elects to transfer from the Teacher Retirement System to the Public Employees Retirement System under the provisions of Act 793 of 1977, the Public Employees Retirement System becomes the system responsible for determining, upon the death of a member, a survivor's eligibility for a refund of the member's account or monthly survivor benefits.

6. The Arkansas Teacher Retirement System shall honor any and all federal and state income tax laws regarding the payment of lump-sum death benefits.

*Act 359 of 2001 authorized the Board of Trustees to increase the active and retired contributory members' lump-sum death benefit to \$15,000.00 and the active and retired noncontributory members' lump-sum death benefit to \$10,000.00. However, the act provided that no benefit enhancement under the act is to be implemented if it would cause ATRS' unfunded actuarial accrued liabilities to exceed a 30-year amortization. Further, if ATRS has unfunded actuarial liabilities being amortized over a period exceeding 30 years, no benefit enhancement is to be implemented until the unfunded actuarial accrued liability is reduced to a level less than the standards prescribed by Arkansas Code, Title 24.
